

ABOUT

Predilecta was born in the center of the largest guava producing region in Brazil, in the municipality of Matão, more precisely in the district of São Lourenço do Turvo, in 1990.

Its industrial park, comprising approximately 300,000 m², of which 28,000 m² is built-up, uses state-of-the-art technology in the manufacture of products and generates more than 1,300 direct Jobs and approximately 5,000 indirect jobs.

Today, Predilecta Alimentos is one of the main food industries in Brazil, it is the leader in the sweets segment (guava paste), the second brand in the stand-up sauces segment.

The company has a wide mix composed of more than 225 Skus (items), among which we can highlight: Guava, Tomatoes, Canned Vegetables, Sweets in syrup and cut, Fruit jellies, Toppings, Light Sugar Line, Condiments, Professional and much more!

The proximity between farming and industry allows the fruits to be harvested, transported and processed on

the same day, adding another great attribute to the quality of Predilecta products.

Predilecta quality control is presente at all stages, from the cultivation of the crop to the output of the finished product.

Certificates

Predilecta, seeking to provide greater reliability of its products to its costumers, is certified through SGS do Brasil Ltda. with the HACCP certificate (Hazard Analysis and Critical Control Points System – in the finished product line and with certification recognized by GFSI – IFS Food version 7 in the manufacture of fruit pulps. It also has Kosher, Halal, SGF Certification (for entry into European countries), Vegan Certification and FDA registration for the export of pulps and products that meet the internal guidelines of private interest of networks and processing industries.
