Special Nutri produces food for a wide range of dogs and cats sizes, breeds and age, focusing on health, energy and longevity of our dear friends.

For us at Special Nutri, ethics is a concrete practice, understood and adopted by all shareholders and employees in the company's sectors, where it maintains its operational and administrative headquarters

Training actions are implemented in each of the company's areas and guidelines are continually improved for the good achievement of the company's ethical code. This code represents a large part of the Special Nutri company's identity.

And its fulfillment strengthens the company's relations with the society, suppliers, customers, consumers, shareholder partners and with the employees themselves that, from the same ethic base builds, day by day, the culture of a sustainable company.
